British Subjects in South Africa.

in South Africa over the treatment | interesting occasion. natives of that country.

The industries of South Africa are very largely in the hands of these India laborers. A very serious strike is on, affecting all classes of industry, farm, factory, and railroad alike, with frequent clashes between the police and the Indians in which 3 number have been killed. A very undestrable state of unrest prevails. To complicate the situation still further with regard to the Indian subjects of his majesty, an overzealons immigrant inspector recently caused the deportation from Vanrouver, B. C., of a Himion teacher, who was sent back on a steamer to Hongkong in the face of a habeas rorpus writ that was pending to cause the officials to show reason for his detention. This official is held now for contempt of court, but India public opinion is none the less seriously disturbed, and Indians are inquiring whether or not they are British subjects, and if so, what are their rights.

Wages in London.

Investigation by experts bring out Farmers' Meetings; Composition the fact that wages in London have of Dried Cowpens; Sheds For dropped tive per cent between 1900 and 19t2. Itelail prices have increased about eight per cent, hat wages have not kept pace. In other words, real wages showed a marked decrease when the cost of living is estimated.

mittee

The recent meeting of the Continsionary Conference was held at the Hagne under the presidency of Dr. John R. Mott. It called together representatives from all parts of the world. A message of sympathy was sent to the meeting by the Queen of Holland, in which she expressed a desire that the spirit of unity might pervade all followers of Christ, members of the household of faith, that this spirit might be increased in intensity, and the strength 'of combined prayer be developed.

For the Little Children

Why did God plan that it should take twenty-one years for a man to grow up when a horse grows up in three years?

It must be there is something important for little children to learn and do during the long years before they become men and women.

Nobody is more active than a child. Unless he is asleep he is on the move.

And his mind is on the move, questioning, remem-

bering, dreaming, studying. Now, we who love the child must help him, and keep up with him. This is what mothers are for, and fathers too. This is what big brothers and sisters are for. We all owe something to the little children in our family and in our neighborhood.

If some young men and women are better than others, ten to one it is owing to the company they had from their parents and playmates.

The new building which Berea College dedicates next week is for the benefit of little thildren-to train teachers to take better care of the young pupils in all the public schools.

And the school exhibitions that are coming on so thick in this month of December, the Christmas trees, and the household gatherings are mainly for them. God bless the children.

Cold Weather

A little cold weather seems necessary to make the best kind of men and women. In the land where it never snows, people grow too lazy.

Cold weather once a year is God's lesson in fore-thoughtedness. God says "Make hay while the sun shines; plant crops in the spring time; build houses when it doesn't storm; gather fire-wood in the pleasant weather. And then when winter comes, you will not shiver but glow. You shall sit by your snug fireside with your loved ones around you warm and cheery; you shall read and sing and rest and plan for the next season." Thank God for the winter time.

Dedication of Knapp Hall

The beautiful training school building which is nearing completion is to be dedicated next Tuesday. -

This is the most perfect building of its kind in the South, and is attracting wide attention. The chief school men of the state, including the Commissioner of Education, Instructor of Rural Schools, Inspector of High Schools, and the heads of leading colleges and normal schools A very serious condition persists have accepted the invitation of Berea College to be present on this

Our Responsibility (By Dr. Cloyd N. McAllister)

An eminent student of insanity said a few years ago, "At least 85 per cent of the inmates of the asylums are there because of their training." This is a serious matter. Think! A targe part of the real "training" which our children get is the trainin received in the schools.

Let us look at the list of criminats. Where do they come from? Graduates of professional schools and colleges, the bankers, merchants, eterks, bartenders, unskilled laborers and farmers are found to make up the largest part of them. Very few skilled mechanics or mothers are found among them. Does this mean anything?

Our mothers, who are real mothers, have learned to work with their hands; they have done the work of the house, eared for the children, and done many chores about the place; they have tearned to forget themselves in having service for others.

The skilled mechanic has learned; to hold himself in check, to forget | with him?" himself, his pains and his weariness, tng. Self is covered and hidden oa to his farm." from view, and his delight is in his; work accomplished.

rmich "time on his hands," Never having acquired skill in manual lahor. he has time for that of self, He never worked with his hands, then to do so now means to degrade him- the parish, and shortly after one of the will get a living without work. The man who is skillful, and, tion asked his chauffeur: as a resulf, enjoys manual labor, is so full of thoughts of other things that his selfishness has no chance for development.

spend the next rainy day in repair- think he was bred, born and reared ing his wagon or plow, in repairing there."-Harper's Magazine, the furniture or building some new bench or other thing to make the work easier for the wife in the kitthen, in repairing the old screens or making new ones for the doors and windows; who knows how to repair the buildings and to build small ones for hinself; who knows my how to lay a pipe to carry water the house below; who knows how to word Eureka.-Puck. repair the road to make the hauting easier, this man is he who is happy in his life and free from

All these things the boy may learn at school if the teacher is well informed and, wide awake to the needs of the life of his district. The girls must be taught to sew and cook in the most efficient manner, and to do the things necessary for the health and comfort of the home, also how to employ any teisure time in making things to beautify the home.

crime or other insanity.

Many people from the farms are placed in the asylums during the spring mouths. During the winter they have been kept in the house, There was nothing they could do hesides a few chores. They had meyer learned to do things with the hands, and during the days of bad weather, they thought of things that did not employ the activities of the hand. The inactive body during these months became weaker, and with the body the mind weakened. By the time the weather might perunit of getting out of doors, the body and mind are found to be so weakened they cannot stand the strain and the patient is taken to a hospi-

tal. We teachers may show the chiltiren what to do about the home. The parents will catch the spirit of you?" the children, and the entire home is renewed and sweetened; the work demic interjection, yas, honey."

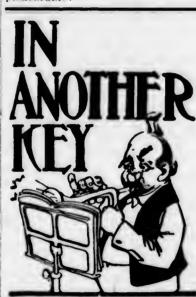

necessary to repair the home becomes real pleasure. Hodity and ONE-LEGGED MAN IS mental highly are guaranteed. What have we done to make the coming wreks of bad weather a pleasurable time for our pupils? Our daily is to make the entire life of the pupit belter. Our work does not mean much for the school unless we can see its effect in every day of the child's life. The child must be a productive member of the community-showing his influence upon home and neighbors.

What can we teachers do? We can show the child how to make simple things that add to the home Send mones by Post-office or hapress Money Comfort. KICKED THE BULL OUT OF THE RING

American Doctor Spectator at Bull Fight Goes to Ald of Fallen Matador.

GRABBED HIS HORNS

Taurus Eithar Did Not Undarstand tha Sport or Ha Was Vary Foxy, So for the Patinga.

New York -Dr. P A. Renaud of 48 Prospect place, Brooklyn, is ship's surgeon of the steamer f'himdelphia. which arrived the other day from Porto ilico and Venezuelan ports. Dr itenaud is some hero, as the passen gers of the line can attest. A week hefore arriving here the Philadelphia was lying at Puerto Cabello Three bill fights were announced for the afternoon. After a lady equestrienne had danced about the bull and given citte exhibitions of managing "Horsey" a strong man came in and broke hig chains on his chest and sustained the weight of five or six men on aforesaid chest.

A matador, nattily attired and gally bespangled, came bowing and amtling into the buil ring. There was a mag nificent beliew turned loose at the entrance, and as the curtains were parted a big buil appeared. As attendant jabbed his bullship in the ribs. and with an awful roar, taurus turned loose and made for the matador. The matador tantslizingly waved a red bandanna with his left hand, while he held his sword in place with his

The bull didn't pay attention to the bandanna at ali. He made straight for the matador, and the matador dodged him Again the bull disregarded the bandanna, and the matador saw that something was wrong Either this bull didn't understand the sport or he was foxy. The wielder of the sword and rag dropped both and made a marathon for the pailings which were five or six feet high

The buil tore after him and caught the unfortunate bull fighter as he was making a flying teap. He sent him ten feet into the nir and the matador came down hard in the buil ring Again the bull made for the prestrate

Sent Him Ten Feet into the Air

form with lowered hand. But taurus from the shore time and valled the misinived the distance and came cropper by sticking his horns into the ground, nearly breaking himself in two.

> Dr Renaud was occupying a 40 cent seat by the ringside. A 40 cent seat is a seat in the shade. You can stand in the shade for 30 cents and in the sun for 20 cents. Dr. Henaud vaulted over the palings and rushed to the side of the wounded man The buil unde for the doctor and the doc tor grabbed him by the horns Then he kicked the buil in the ribs, and into reasonableness. He was a buil nnybow, and he sprinted for the palings ile went over the palings like a deer vaulting a tiny brook. The crowd scattered and gave him room and in stentorian tones the ship's aurgeon cried:

"Tie that buil outside!" Then he torned his attention to the wounded man-who was budly huri It was necessary to put 17th utilities

COST OF THE DRINK TRAFFIC

Soms Startling Figures Given Ragarding Expense of Liquor Businaaa to People of the Nation.

The I'nion Signal, official organ of the National Woman's Christian Tempernnce union, gives some startling figures regarding the cost of the liquor traific to the nation and points out the need of wiser linanciering. It has this to sny concerning the revenue argument

The federal government collecta some \$220,000,000 a year from the liquor business This includes special taxes paid by brewers, distillers and dealers. The estimated amount received by state, county rnd municipal governments in license and tax la about \$75,000,000 Thus the total internal revenue from the traffic in something less than \$350,000 000 The average legislator and many a good citizen is honesily of the opinion that these liquor millions are needed to help meet the enormous expenses of government They sincerely deplore the ilquor evil and would gladly see it abolished were it not for the defusion that there is financial profit in licensing the same. They see the money pouring into the nation's coffers, see the amount placed in the credit column of the ledger, and go their way without stopping to consider the debit

side of the account. Government officials and the voting public generally will some time be convinced that it is very poor financiering to foster an industry which makes so many people non-producers, results in the degeneration of familles, and throws an army of Incapablea upon the state and upon charity organizations liut they will have to be shown" it behooves us as prohibltionists and as public sentiment makers to show them that "the cost of the drink traffic to the I'nited States approximates annually \$5,000,000,000 loss of products, mortality and in crime and parperism." Five billion dollars as sgainst three hundred and fifty mittion s balance of \$4,650,000,-000 on the debit page! It restuires more than thirtees times the amount of revenue received from the traffic to take care of its consequences! The figures are astounding, but they are, we are assured by Prof. John A. Nichoils in his "Economic Studies of the Liquor Problem," the result of careful and conservative investigation made by expert statisticians

We must show further that abolltion of the jiquor business does not mean abolition of the money it represents, that under nation-wide profitbition the same \$150,000,000 will still be in circulation still available for government needs, and that there are better and when ways of collecting it trem the people then through sainonkeepers and brewers and distillers. The new income tax amendment to the federal constitution provides one way Other ways and means will emiskis to desired as the brains of voters, fawmakers and government inanciers become more and more free from the benumbtus and beforging inthrence of siconed

EFFICIENCY IS FIRST DUTY

Railroads Gradually Extending Order Prohibiting Use of Liquor Among Their Employes.

Back of the undoubted trend toward temperance in this country, says the Atlanta Constitution, is the economic force-the stern, unsentimental bustness edict, "Choose between your

drink and your job" Iteform of this naturo began first with the railroads. Above all other esliings, this one requires clear heads, steady nervos, kees eyes. Many years ago, crews were forbidden to drink while on duty. The interdict is gradually extending to include those off duty as well. Train dispaichers and trainmasters and general superintendenta are finding that the man who "lushea" between runa is only a triffe less menacing to safety of traffic than the employe who carries a bottle with him on the trip. When a train is ditched through the snap of an alcoholized intelligence it costs the road money Therefore-alcohol must go.

The same principle is rapidly spreading to all occupations. era is one of efficiency. Whisky makes against efficiency. "I'ersonally, you are emittled to your drink," says the employer to his employe, "hut I am also enlitted to efficiency. I can't compel you to sign the piedge or to observe the prohibition law, but I can and will secure efficiency by refusing employment to the man who drinks.

To the Merchant,

The liquor traffic is a parasite that thrives on the destruction of legitimate trade. Saloons are apongea that absorb that which should be apent with you. It is responsible for most of your bad accounts; It gets the cash, You give the credit. Abolish the sa-

MOUNTAIN AGRICULTURE

Conducted by Prof. Frank S. Montgomery, Instructor in Animal Husbandry, and Special Investigator.

FARMERS' MEETINGS.

Six profitable farmers' meetings were held by Mr. Montgomery during the past week. Aithough the attendance was not what it should be at some of the meetings, yet a deep interest in better farming was manifest, and letter work on our farms will result from these meetings.

On the night of Der. 3rd Prof. Clark and Mr. Montgomery had a small but interesting audience at Hispatanta. Fruit growing and the serving soil fertility were the main subjects discussed.

Mr. Montgomery held other meetings as fedlows: At Bear Wallow on Thursday night; at the Broom Ledge school beyond Waco Friday evening; at College Hill Friday night; at Panofa Saturday evening and at Conway Monday night. Hurt Chestnut, former teacher at Conway also spoke Wat that place,

At all these meetings great stress was laid upon the importance of raising cowpeas and rye for the purpose of improving the soil, and by their use tary all the commercial fertilizer then needed for half the money since acid phosphate will then be ail the fertilizer needed, and when the 16 per cent grade is bought it costs only half what an equal

Food Value of Cowpeas Comparad with a Balanced Ration.

in the balanced ration a food which contains 3.4 onnces of protein (as a pound of dried cowpeas does) should yield at least 3,000 catories. Cowpeas, therefore, which yield 1,590 calories for every 3.4 onnes of protein, need to be supimportance of increasing and ron- plemented in the diet by foods which have a greater fuel value in rom- and those that they do give are irparsion with their tissue-forming unterial. This indicates the reasonableness of the many combinations that are made with cowpeas: Cowneas and rice, for example, to form "flopping John"; cowpeas baked with sait pork; succetash; and salads, in which the peas are served with a dressing rich in oil, butter, or other fat.

Mathods of Cooking Cowpeas.

As suggested above, rowpeas in the pod and also green shelled rowpeas, are usually cooked like string beans or ordinary green peas, in logiting saited water and served with a little butter, milk or cream. Precaution, however, should be taken not to gather or shell the green amount costs in the best mixed cowpeas long before they are to be abount costs in the best mixed cooked, for if this is done their ferterizers. time for a bit of fat.

In the midst of the Southwestern ing the winter, entertain many strange desert, nesr Alamogordo, N. M., there guests-hedgehogs among them. One is a shining sea of white sand that woodsman, on leaving camp on a Sat has proved a puzzle to many noted sciurday afternoon, used to neglect, pur entists who have visited it. The country in which the sands are posely to close the door of his shack in order that the bedgehogs might en-

located is known as the Tularosa desmeat production and that are hardy, ert. As the traveler approaches the desert he gets no preliminary hinta as to the character of the country he is entering upon. Suddenly one comes upon a distinctly marked bed of white sand, gilttering and sparkling in the sun like nothing so much as granulated sugnr. The pure whiteness of the sand is astounding. As far as the eye can reach, there is a giare of white, relieved only by the grene of the yucca plants on some of the dunes.

These dunes are composed of irregular heaps and ridges of gypsum. Some of the dunes rise to a height of 60 feet, but most of them stretch away in regular billows of 15 or 20 feet in height. The effect of water is heightened by the fipples which are carved on the surface of the sand by the winds. These ripples look like waveieta carved on a marbie representation of the ocean, when viewed from a distance.

The white sands are in an irregular body, 10 by 90 miles in extent. They are composed of gypsum, and are in perfect granules. When moist the sands are yellowish, but when dry are pure white, They are firm and unyielding, ilke a wet beach on the seashore, and one can wsik across them almost without leaving footprints. Taken in ied by two members of his suite, esthe band, the grains of sand are dull, pied an empty match box, which had but when viewed from a distance they sparkle with an uncanny brightness. If one walks a little way across the white sands in the middle of one of the hot, sunshiny days common in Now Mexico, the glare proves almost crowded traffic, grasped the muchblinding, while the heat radiated from coveted treasure, and was nearly run this sea of sand is terrific. A peculiarity about the sand is its perfect solubility. Taken in the hands, grains specimen to his collection-gnthered of the white sand can be rubbed into powder with little effort.

Oldtimers in New Mexico, who have he had run. known of the white sands for many years, assert that the white sands are constantly moving. The indians tell all kinds of uncanny stories concerning the white sands, which are supposed to be "bad medicine," and the red men are careful to keep away from the place. It is estimated by careful observers that in about twenty years the white sands have advanced eastward one-half mile, and that a steady movement in that direction is going on. In fact, a wagon road leading around the edge of the sands has been changed several times, because the shifting sea of sand has obliterated parts of it

Nobody has ever made the trip across the white sands, to the knowledge of white men in the aouthwest. It would be easy for a "tenderfoot" to become lost in the sand dunes haif a mile from the edge of the Tuiarosa desert proper. The dunes look much alike, and, unless one had a compass ho might wander for days in the maze of glaring white sand hills and never find his way out. It would require but a few hours in such a blaze of heat, however, for a man to succumb, uniess he had taken the precaution to provide himself with an ample supply of water.

SERVED IN THE REVOLUTION

THE SIN OF ACHAN.

LESSON TEXT-Joshua 7:6-15. Read cupants the spiny gluttons would Joshua chapters 7-11.
GOLDEN TEXT—"Be sure your sin will fir'l you out."-Num. 22-23.

> Before proceeding against Jericho, God, through his servant Joshua, had given strict injunctiona as regarda the taking of anything from the city for self-enrichment, ch. 6:17, 18. It was necessary at the outset of this campaign to safeguard israel against any such motives. The fruits of their victories must in no way seem to he the rewards of, nor to be dependent upon, the efforts of their own hands. Spiritual victories are, as we learned last week, won hy means and upon principies utterly foolish and inadequate in the view of human wisdom. Nor is the Christian dependent upon the principles of human thrift for his sustenance or enrichment. That does not menn the divorcement of the Christinn from those principles.

> The story of Achan is an illustration. White his sin was individualistic yet it was national in its results (v. 1.) After the fall of Jericho, Joshua sent a detachment of 2,000 or 3,000 men to take possession of the small town of Ai (ilterally, "ruins"). The task was accmingly an unimportant and an easy one, but the result was that the expedition was turned into a miserable rout (vv. 1-6).

in such circumstances-more than Achan's Sins Revealed. compensated him for the risk which The stages of the sin of Achan are wonderfully revealed in the confession (v. 21) which was finally wrung from ''1 saw . . . I coveted . . .

I took . . . they are hld." I. Joshua's error, vv. 6-9. It was right and proper for Joshua to hring his difficulty to God, but it was not right for him to lay upon him the blame for his defeat. Moses before him had made that same mistake (Ex. 5:22, 23), and it would seem that Joshua should have profited thereby. In this, however, he is supremely human. We of today with far greater light are constantly making this same mistake of accusing God, instead of finding out and judging our sin. There is, however, an underlying note of the master passion of Joshua's heart, that note which had ao governed the heart of his predecessor, Mosea. It is expressed in the last note of his complaint, "What wilt thou do for thy great name?" v. 9. This com-plaint and petition sounds very much like those of the preceding generation uttered in the wildernesa. For us to wish ourselves to be "content to dwell heyond Jordon," when the testing times of our Christian life come, when the calls come for an advance, is to doubt his wisdom. No wonder Joshua was amazed when he aaw israel turn ita back upon ita enemics (v. 8). We when we see the church of today give The accompanying portrait is that of way before the world and the devil.

il. The cause of defeat, vv. 10-12. Joshua's petition is answered by the voice of Jehovah in terms of rebuke, strong, yet tender. In verse two we nre told that Joshua sent men to view At. Why? Because in the language of verse one "the children of Israel committed a trespass in the accursed thing." Joshua wanted the people to know that the sin of Achan and its resulta was the sin of the whole nation. God brings the essential oneness of the nation before us in verse eleven; for an illustration, see I, Cor. 5:1-7 and 12:12-14, 16.

God's instructions. iii. The victory of defeat, vv 13-15. it is a testimony as to the spiritual condition of this nation that the fraud the French government reached the was so soon located. The early Chrisconclusion that the drum was no longtian church bad a parallel incident in the case of Ananias and Sapphira, Acts 5:1-11. In each case the evil was drum was a serious encumbrance in quickly judged and reveals the closeness of God to his people. In the pro-cess of years Israel passed from that fuineas; that ita calis could not be distinguished in time of battle; that it condition; has the church of today so consumed a period of two years to passed? God had given explicit inturn out an efficient drummer; and structions as to the spoil (ch. 6:18 R. V.). God commands Joshua not to cry unto him, but to "sanctify the peopie." The church of Christ, as well as the individual, needs to judge its sin and to aet itself apart unto God. It was a stern judgment and the query arises what sort of bonfire would the church have today were all sinfully acquired property to suffer similar deatruction. It is noticeable, however, that there is no suggestion of any confession on the part of Achan until the narrowing circle of judgement had closed upon him. He confessed only when there was no possible escape. This seems like a stern,

> ing in mercy with the whole people.
>
> IV. The Golden Taxt. The words of this text were uttered by Moses to the two and a half tribes who settled on the east of Jordan, that in case they refused to come to the help of their hrethren in the conflict necessary to the possession of Canasa, their sin would discover tham. This lesson warrants the application of this principle. A ain against God results is injury to your neighbor. It is a ain not to help your neighbor and conversely to indulge in any act which results in the dafeat, moral or otherwise, of those with whom we associate, in also a sia.

hard process, but yet God was deal-

MEETING OF TOWN COUNCIL. Park to be Presented to the Town by the Collega.

Town Council met at the Town Hall Tuesday night; all members

Considerable time was occupied in discussing the claims of the town for a street near the railroad and in considering bills to be paid.

The great item of interest was the final passage of the long considered act of changing the street around the so-called public-square. Mr. and Mrs. Tilden Combs and in accordance with the advice of children have gone to Perry County the famous architects, Olmstead Brothers of Brookline, Mass.-the men who laid out the Cherokee Park of Louisville and the Civic Center of Cleveland-this street will be changed and run diagonally from the bend in Chestuit Street Mr. Willie Campbell of Estil to the beginning of Center Street, County was in Berea on husiness thus dimishing by nearly half the amount of roadway to be kept up as well as the distance to be gone over by the traveling public.

The triangular space east of the new line of traffic is to be present-Dr. Cornelius expects to move to ed by the College to the town for perpetual use as a park, free from all buildings.

> Olinstead Brothers' plan for this new street and its beautification by trees and grass plats was presented and much admired.

DEATH OF MRS. RAMSEY.

and recorded in the state of Massachusetts. Upon investigation it was discovered that 17,575 of these crimes were drunkenness only, and that 657 others were committed while the men implicated were drinking. In the last number there drunkenness. 8,440 of the men were pays a big revenue in dollars and invade the United States there is an sentenced for other erimes than drunkenness, but it was noticed that 43 per cent of these committed their crimes in a greater or less degree of

the license laws were in effect were as follows: In Brockton, 1627; in Taunton, 1202; in Chelsea, 1246; in Salem, 1432; in Fitchburg, 1160. It is equally interesting to note that the number of arrests made during the years when there were no license laws in effect were as follows:

In Brockton, 455; in Taunton, 482; in Chelsea, 398; in Salem, 503; in Fitchburg, 359.

These tigures speak for themselves. No arguments whatever are needed to convince the man with an open mind that the presence of intoxicating liquors means many crimes and the absence of drinks means fewer crimes. A few years ago there were about 1400 inmates in the state penitentiary at Frankfort, Ky. Something like 90 per cent of these inmates were in prison for crimes committed while the criminals were under the influence of alcohol, or for crimes that would not have been committed if those committing them could not at any previous time have had access to alcohol. but what"-"Well, mustle told me"-

"Auntle! Auntle who?" "Auntle Oliver. She isa't really my auntle, but mamma and me lived to her house for ever so long, and so"-

"Whit, wait, wait! I'm hult down in the fog. This is gettin' too thick for me. Your auntle's mime's Ollver and you lived in Concord, N. H. For-for thunder sakes, what's your name?"

"Em-Emlly-Richards-Thomas!" Yes, sir.'

"Emily Richards Thomas! What was

"Emily Richards Thomas."

your ma's mane? "Mamma was Mrs. Thomas Her

front name was Mary. She's dead. Don't you want to see your letter? I've got it now."

She lifted one of the flapping coat sleeves and extended a crumpled. damp envelope. Cuitaln Cv took lt ln a duzed fashion and drew a long breath. They he tore open the envelone and read the following:

Dear Captain Whittaker-The bearer this is Endly Hicherls Thomas. She is seven, going on eight, but old for her years. Her nother was Mary Thomas that used to be Mary Thayer. It was her wrote to about keeping house for you, but she had been dead a forintent before your letter come. She had bron-chiat pheumonia, and it carried her off, having always been delicate and with more includes to bear than she could stand, pour thing' Since her husband. t say was a scamp even if he is left her and the baby she has took rooms with me and dom sewing and auch. When she passed away t wrole to Beth thowes, a relation of hers out west and, so far as t knew, the only one she had, t told the thowes man that Mary had gone and Somile was left. Would they take tur? t wrote. And Seth's wife wrote they couldn't, being poorer than poverly themselves. I was aftait she would have to go to a tooms, but when your letter came t wrote the threeses again. And Mrs thowes wrote back that you was rich and a sort of faroff relarooms with me and done sewing and you was rich and a sort of faroff relation of Mayy's and probably you would be glad to take the child in bring up Said that she had some correspondence will you alout Mary before. So I send Eminic 10 you. Sonebody's got to take care of her, and I can't afford it, though I would if t could, for she's a real nice child and some like her mather I do hope she can slay with you it seems a shama to send her to the orphan asytua I send along what clothes she's got which she's many itespecifully yours.

SARAH OLIVER. Captain Cy rend the letter through Then he wiped his foreliend,

"Well!" he muttered "Well! I nev er in my life! I-I never did! Of all"-Emily Hichards Thomas looked up from the depths of the coat colar,

"Don't you think," she said, "that you had better send to the depot for my box? I can get dry some this way, but mamma slways usade me change my clothes as soon as I could. She used to he afraid I'd get cold."

CHAPTER VI.

APTAIN CY did not reply to the request for the box. It is doubtful if he even heard it. Mrs. Oliver's astounding letter had, as he afterward said, left him high and dry with no tug in sight." Mary Thomas was dead and her daughter-her daughter, of whose very

existence he had been ignorant-had auddenly appeared from nowhere and been drapped at his door like an onl of season Mny basket, accompanied by the modest suggestion that he assume responsibility for her thereafter. No wonder the captain wheel his forchead In atter bewilderment,

"Don't you think you'd better send for the lox?" repeated the child, shivering a little under the ldg coat.

"Hey? What say? Never mind, though. Just keep quiet for a spell, won't you? I want to let this sonk in. By the ldg dipper! Of all the solld brass cheek that ever I run across this beats the whole enrgo? And Itetsy Howes never hinted! Predaildy you would be glad to take'- Ite glad! Why, blast their miserable, sthigy-What do they take me for? I'll show 'em. Indiami nin't so fur that I can't-Hey! Did yen say anything, sis?"

The girl had shivered again. "No, sir," she replied. "It was my teeth, I guess. They kind of rattled,

"What! You win't cold, are you, with all that round you and in front

"No, sir, I guess not, only my lack feels sort of finny, as if somebody kept dropping leleles down it. Those bushes and vines were so wet that when I tumlded down 'twas most like

being in a postd."
"Sho, sho! That won't do. Can't have you laid up on my hands. That would be worse than- Humph! Tut. tut! Somethin' ought to be done, and I'm Idessed If I know what. And not a woman round the place, not even that Debby. Say, look here! What's your mme-er-Enmie? Hadn't i better get the doctor?"

The child looked frightened. "Why?" she cried, her big eyes open-

ing. "I'm not sick, nm 1?" 'Sick? No. no! Course not, course What would you want to be sick for? But you ought to get warm and dry right off, I s'pose, and your ditds are all up to the depot. Say, what does-

felt-er-them leicles and things? "She changed my clothes and rubbed me, and if I was very wet she put me to bed sometimes."

what did your ma used to do when you

"Bed? Sure! Why, yes, Indeed! Bed's a good place to keep off leleles. There's my bedroom right in there. You could turn in just as well as not. Bunk plu't tinde yet, but I can shake it me in no time. Sny-er-er-you can undress yourself, can't you?"

"Oh, yes, sir! Course I can! I'm most elght."

"Sure you nre! Don't act n mite babylsh. All right; you set still till I slinke up that bank."

He entered the chumber, his own. opening from the sitting room, and proceeded literally to "shake up" the bed. It was not a lengthy process, and when li was completed he returned to find his visitor airendy divested of the coat and standing before the stove.

"I gness perhaps you'll have to help undo me behind," observed the young lady. "This is my best dress, and I can't reach the luttons in the sulddie of the lack."

United a Cy so ratched his head. Then he chansily ambuttoned the wet walst, glaneling rather sheepishly at the win dow to see if any one was coming.

"So this is your best dress, hey?" he asked, to cover his confusion. It was olylously not very new, for it was neatly meaded in one or two places.

"Yes. slr"

"So. Where'd you buy It - up to Concord?

"No. sir Mamma made li o year ago." There was a little choke in the chi'd's voice. The cartisin was mightly taken

"Hunr! Yes, yes," be muttered burriedly, "Well, there you are New you can get nlong, can't you?"

"Yes, sir. Shall I go in that room?" "Trot right in You might er maybe you might sing out when you're tucked up. 1-1'll want to know It you've got hedelothes eaough."

Emily disponeared in the hedroom The door closed Cuptain Cy, his bands in his pockets, walked up and down the length of the sliting room The expression on his face was a queer

"I haven't got mny nightgown," called s voice from the other room. The cup taln gasped.

"Good hind, so you aln't!" he ex claimed. What in the world-Humph! I wonder"-

He went to the lower drawer of a tall "highboy" and from the tumble! mass of apparel therein took one of his own night garments.

"Here's one," he said, coming back

with it is his hand. "I guess you'll have to muke this one do for aow It'll fit you enough for three times to once, but it's all I've got."

A small hand reached round the edge of the door, and the nightshirt disappeared Cuptuin Cy chuckled and resumed his inchig.

"I'm tucked up," culled Miss Thomas. The captain entered and found her in bed, the intelework points and diamonds of the Hising Sun quilt covering her to the chin and her head denting the uppermost of the two big pillaws. Captain Cy liked to "sleep high."

"Got enough over you?" he asked. "Yes, sir, thank you."

"That's good. I'll take your togs out and dry 'em in the kitchen. Don't be scared. I'll be right back." In the klichen he sorted the wet gar-

ments and hung them about the cook stove. It was a strange occupation for him, and he shook his head whim sically as he completed it. Then he took a flatiron, one of Mrs. Beasley's purchases, from the shelf in the closet and put it in the oven to heat. Soul afterward be returned to the bedroom. bearing the from wrapped in a dish

towel. "My ma always used to put a bot flat to my feet when I was a young one and got chilled," he explained.

ain't used one for some time, but I guess it's a good receipt - How do you feel now? Any more icicles?" "No, sir. I'm ever so warm, Isn't

this n nice hed?" "Think so, do you? Glad of h. Well now, I'm goin' to leave you in it while

T'LL TAKE TOUR TOOS OUT AND DRY 'TW

IN THE KITCHEN. step down street and see about havin' your box sent for I'll be back in a shake. If anybody comes to the door while I'm gone don't you worry Let 'em gu nway again."

He put on his but and left the house. walking rapidly, his head down and his hands in his pockets. At times he would pause in his walk, whistle shake his head and go on once more Joslah Dimick met him, and bis an swers to Joslah's questions were so vague and irrelevant that Cuptain Dimick was juzzled and later ex pressed the equition that "Whit's cook in' must be pretty laid; acted to me as If he had dyspelesy of the brain.

Captain Uy stopped at Mr. Lumley's residence to leave an order for the de-Simmons' and accosted Alpheus Smal

'AL" he said, "what's good for a cold?"

"Why?" asked Mr Smalley In true Yankee fashion "You got one?" "Her? 1th, yes-yes, I've got one.

By way of proof he coughed mittle the lamp chimneys rattled on the shelf "Judas! I should think you had! Is your throat sere?"

"Hey? Yes, I guess so."

"Hop't you know? If you've got sore throat there alu't nothin' better 'n Arabian balsam. But what in time are you doin' out in this drizzle with a cold and no umbrella? Da you want

"Never mind my umbrella. I teft it in the church entry tother Sunday, and somebody got out afore I did. This Arablan tods im-seems to me I remember my ma's usin' that on me Wet a rag with it, don't you, and the it round your neck?" "Yup the sure and use a dannel

rag and red dangel If you've got it That nots out ker in the other kinds Fifteen cent bottle?" "I gness so Might's well give me

ome sass'jerilla while you're about it; ulways handy to have in the house And er-say, is that ennued some you've got up on that shelf?" The usionIshed clerk admitted that

It Was "Well, give me a can of the chicken

kind Mr Smalley, standing on a chair to reach the shelf where the soup

was Lept, shook fils head. "New that's too had can'n." he said but we're all out of chicken just now Fact is, we ulu't got nothin' but ter uniter and beef looth. Yes, and I

declare if the terumiter ain't all gone." "Humph' Then I guess I'll take the beef Needa't mind wrappin' it up So long."

The emptain entered the house quietly and thought to the door of the bed room, Emily was usleep, and the sight of the childish head upon the pillow gave him a start us he peeped in at it It looked so mitural, almost as if It belonged there. It had been in a bed like that and in that very room that he had slept when a boy.

Gabe, brimful of curlosity, brought the box a little later. His curlosity was ungratified, Captain Cyrus explaining that it was a package he had been expecting.

He was warming the heef broth in a saucejan on the stove when Emily appeared She was dressed in dry clothes from the lox and seemed to be feeling as good as new.

"Hello!" excluimed Captain Cy. that was it?" Yon're on deck again, hey? How's "All gone," was the reply. "Do you

do your own work? Cun't I help? I can set the table. I used to for Mrs. The captala protested that he could do it himself just us well; but, the girl.

protesting, he showed her where the dishes were kept. From the corner of his eye he watched her as alse unfold ed the tablecloth

"Is this the only one you've got?" she inquired. "It's awful dirty." "Hum! Yes. I ain't tended up to my washin' and ironin' the way Id

ought to. I'll lose my job if I don't look out, hey?" Before they sat down to the mes! Captain Cy lusisted that his guest take a tableap-souful of the sarsuparilla and decorate her throat with a

section of red danuel soaked in the "Arabian halsam." "Have some soup? Some I bought purpose for you. Best thing gola' for folks with icicles," remarked the captain, waving the iron spoon he bad used to stir the contents of the sauce

"Yes, sir, thank you. But den't you

ask a blessing?"

"A blessing, you know-saying that you're thankful for the food now set

before us."

"Hum! Why, to tell you the truth I've kind of neglected that, I'm nfraid Bein' thankful for the grub I've had lately was most too much of a strala. 1 shouldn't wonder."

"I know the one mamma used to say, Shall I ask it for you?"

"Sho! I guess so If you want to." The glri bent her head and repeated short grace. Captain Cy watchel her curlously.

"Now I'll have some some, please, observed Emily. "I'm awful hangry. I had breakfast at 5 o'clock this morn ing, and we didn't have a chance to eat much."

A good many times that day the cap taln caught bluself wondering if h wasn't dreaming. The whole affair seemed too ridiculous to be an actual experience. Illuner over, he and Ilm mie attended to the dishes, he wish ing and she wiping. And even at this early stage of their acquaintance her disposition to take charge of things was nipurent. She found fault with the filsh towels. They were almost as and as the tablecloth, she said. Considering that the same set had been in use sluce Mrs. Beasley's departure, the criticism was not altogether baseless.

"Exense me," she said, "lart don't yon think that plate had better be done over? I gness you didn't see that place in the corner. Perhaps you've forgot your speed. Auntle Ollyer coubln't see well without her speed Captain t'y grinned and admitted that it second washing wouldn't hint the plate.

"I guess your anutic was one of the particular kind" he said.

"No, sir; 'twas manitum. She couldn't benr dirty things. Auntle used to say that mamma limited dust with a magnifying glass. She didn't, though, She only liked to be neat, I gitess dust doesn't worry men so much as it does Women.

livery of the lox. Then he drifted into • "Oh, cause there's so much of it here. Don't you think so? I'll help you clean up by and by if you want

to. "You will?"

"Yes, sir. I used to dust sometimes when mainta was out sewing. And once I swent, but I did it so hard that auntle wooddn't let me any more. She said 'twas like trying to blow out a match with a tornado.

Later on he found her standing in the sitting room critically inspecting

DON'T YOU THINK THAT PLATE HAD BET-TER DE 190NE OVER?"

the mats, the furniture and the pletures on the walls. He stood watch ng her for a moment and then asked; "Well, what are you lookly for-more dust? "I won't be hard to find it. 'Dust then art and name dust then shalt return.' Every time I go outdoor and come in again I rentize how true that is."

Emily shook her head. "No. sir." she said. "I was thinking that this room was different from any I've ever seen. It's got a good many things in it that I never saw before, but I guess they're pretty after you get used to 'em.' Captula Cy langhed aloud. "After

you get used to 'em, hey?" he repented. 'Yes, sir. That's what mamme sald about Anntle Uliver's new bonnet that she made herself 1-1 was thinking that you must be pecullur." "I'ecullur?"

"Yes, sir. I like peculiar people, I'm peculiar myself. Anutle used to sny 1 was the most peculiar child she ever saw. Praps that's why I came to you. Praps God meant for peculiar ones to live together. Don't you think maybe

And the emptain, having no answer ready, said nothing.

CHAPTER VII.

HAT evening when Asaph and Italiey, coming for their usual cull, peoped in at the window they were astounded by the tablean la the Whittuker sitting roots. t'aptain t'y wos sented in the rocking thair which hed been his graad father's. At his feet, on the walnut cricket with a haircloth top, ant a little girl turning over the leaves of a tattered unignzine, a Godey's Lady's Book. A plie of these mugazines was beside her on the floor. The captain was smiling and looking over her shoulder. The ent was curied up in another chair. The room looked more bomelike than it had since its owner returned to It.

The friends entered without knocking. Captain Cy looked up, saw them and supeared embarrassed.

"Hello, boya!" he sald. "Glad to see you. Come right in Clearin' off fine,

ITO BE CONSINUED.

ESTHER'S PRODIGAI

By CLARISSA MACKIE.

When Esther Trent's Aunt Judith died and left her the little white house on the corner, Esther gladly left the home of her father, where a stepmother ruled supreme, and went to

live slane in the little white house Esther carried with her all the belongings of her own mother as well as her girlish trinkets and keepsakes. In time the little old-fashioned parlor came to look exactly as had the parlor of her own home, even to the ancient square plane that filled one corner.

'For land's sake, Esther, are you going to settle down here and be a regular old mald?" demanded Loretta Campbell, who was prematurely gray and sewed for a living.

Esther laughed. "I always wented a home of my own, and if I waited till I got married, may

he l'd never have one. I can be just as young living here as if I stayed at "I don't know, seems awful old-

maidy to me," insisted Loretta: "just like my having white hair when I'm only thirty-five-seems as if I had to stop expecting to get married '

"I'm thirty-nine," said Esther gently; "I don't believe it's any too, young to set up housekeeping." Loretta t'ampbell was thirty-nine,

too, and she knew that Esther was aware of it, but she had a cheery boldness that carried her through very emlurrasing situations.

"I'm never going to be any older than thirty five," she said significantly. "Now, Esther, how you going to have this neck fixed? High or low?"

After this important item had been discussed and Loretta had returned to the sewing machine, the little dressmaker paused in her furlous pedalling and turned her sharp face over her

"Did you know Emmy Slocum was going to be married?" "Yes-aome time this month, isa't

"The nineteenth." Then after a per ceptible pauso Loretta added: "I won der if Ed Slocum will come hame to

the wedding?" "Im sure I don't know," "I heard they didn't know what part of the world he was in," pursued Lor-

etta, now that the delicate topic was opened "Indeed?"

"Yes. I heard his father told him he neednn't never come home until he'd made enough money to pay back some of that he'd ill spent. I call that pretty hard of old Jim Slocum-l'a snys he was a limb when he was a boy and made no end of trouble tor his folks-yet old Jim is hard as nails on poor Ed. Why. Ed can't be a boy any longer-he must have stopped cutting uje tricks long ago

Esther was slient. "Ed wasn't what you'd call had be as just full of cutting up, but it seemed to cost his father a lot of money Well, they drove him trum home and I guess his ma broke her heart over it. I blame it all on old Jam Sloenm-mean as all get out' I wonder what Mr. Slocum will de

after Emmy's married?" said Esther Nobody knows-Dexter won't have him live with them-he's as much as said so Keep house for himself, i

"Why, he can't do much He's real feelile-he must be seventy years old." protested Esther "Hon't seem to make any difference

how old one in-they get trouble just the same," remarked Loretta Atter Loretta had gone home that night. Esther washed up the supper dishes and then sought her little parlor, where she lighted the lamp with the dangling prisms and sat down by

the marble top table. For a long time she sat lost in reverle. She was thinking of old Mr. Slocum so soon to be left alone. She was thinking of the prodigal, Ed, who had run away from home twenty years hefore. She looked back on her own girlish grief over that event as one reads

the story of a stranger. Once she had sat in the parlor at home, when Ed Slocum used to call upon her three times a week, just as she was sitting now. Then she was waiting for him with fluttering heart and eyes that were tell-tale. How handsome Ed was-black-haired, blackeyed, light-hearted-the best fellow in the world, and it was this very easygoing nature of Ed's that had led him astray Sho still treasured the basty note in which he had taken leave ot It seemed to be the delicate rosy thread that held her to her youth and

Some day he might come back. Some day he would return. He had loved

Eather's brown head drooped a little rearlly at these sad memories, but she was a hrave soldler and she lifted her chin and took up the photograph album and turned to Ed's picture placed there opposite that of her

mother. Her eyes were dim when she laid it aside, "lie's my poor prodigal just the same," she murmured to herself as she blew out the light and went upstairs to hed.

Two weeks after that Emmy Slocum was married, and all Leavenmill was interested in the masculine housekeeping of Mr. James Slocum. Of outside help he would have none. Emmy and her husband had gone west, and the prosperous Dexter had offered to pay the wages of a housekeeper for his father-in-law, but Mr. Blocum had

curtiy refused. One December day Eatker met old James Slocum hobbling toward home. carrying a heavy basket of groceries. "Can't I help you, Mr. Slocum?" sha

asked timbilly. "No, thank you, 'Esther-when I can't carry my own bundles R'll be time for me to lay down and dle," he said, not unkindly

"I'm sorry you are all alone," ven tured Esther, feeling very sorry for the harsh old man who had driven his son from his door, and whose daughter had left him to make a home for her

self 'Tain't any matter!" inuttered Jim, then, with a sudden change of tone he added in a broken voice: " some butter Esther, I'd like to ace

my Ed belore I dle!" Tears came into Eather's brown eyes "Of course you would," she said gently. "Ilave you any idea where he Is now?"

'No-i reckon he's dead," said the old man drearlly.

"What makes you think that?" "I ain't heard from him for a long while Last time there came a letter. it was for my wife-he didn't know she was dead, and I just out the newspaper notice of her death and wrapped it around the letter and sent em to the address on the outside of the envelope. Some place in Kansas. -and I've never heard a word sinc and that seven years ago-but I thin he's been here-al think he keeps track of us

'What makes you think so?" One Sunday Emmy and I went to the cemetery to my wife's grave and it was covered with beautiful white flowrs like nothing that grows here sbouts and ever since then on her birthday there's slwsys white flowers on the grave Emmy and I doa't know, but we guess Eddio did it a it hurts me, Esther that he's atraid to meet me face to tace," He sighed heavily It he only knew, Mr Slocum, I am

sure he would come We can't find him, Esther 1 can't rescember the name of that Kansas town and there came a wedding present for Emmy-a beautiful set ot knives and lurks. There was no name attached and the postmark on the ber was blurred. We could only guess it was from Eddie." It was after that that Eather Trent

took neen herself a mighty task. She bought postal cards by the dozen and on each one wrote an appeal to Ed ward Slocum to return to his aged tather, who needed him. These she sent to many towns and cities in the state of Kansas, in the hope that she nught by chance strike upon the place where Ed Slocum made his home These postal cards she carried to the postoffice in the next village Weeks passed and there came no re-

sponse to Esther's anonymous appeal There had been one town which bore her own name, "Esther," and she had herished a finttering hope that Fate might decree that there was magic in the name of his old sweetheart. No news came from her dear prodt-

gal and at last Esther gave up hope and turned her attention to making Jamese Slocum as comfortable as he would permit her There was not neuch to do, for the old man was proud, he had plenty of money to keep film in contert One bitter night when James Slo

of rheumatism, had been compelled to en was aglow with warm light from the stove l'sther was moving around bent on household tasks, and Mr Sloenm, his helpless foot propped on a chalr, was reading by the light of a green shaded lamp The supper dishes were washed.

enm almost helpless from an attack

She untied her apron and reached up to the hook for her knitted shawl when there came a knock at the door Eather answered it to admit a slee der, erect man, whose sparkling black eyes searched hor face eagerly and

and Esther had prepared the old man's

bed in the little room off the kitchen.

then darted to the wrinkled face of the old man. "Father!" cried the man, and went past his old sweetheart and kneld beside James Slocum.

It was several momenta before tha old man could command his voice to speak 'Son," he said, "It was Kather Trent who brought you back."

"I know it, father," said Ed humbly. Itut when they looked around Eather had disappeared. Never inlind, I'll go around after her in a little while," said Ed. "There are

a few things that must be discussed

first-and I want your blessing, futh-Eather was putting out the light when there came a ring at her doorbell Trembling in every limb sha turned up the wick of the parlor lamp

and went to the front door. Ed Slocum stood there, his keen, eager face upturned to hers. "May I come lu, Esther?" he asked.

Eather amiled tremulously. What could she say to him after all these years of waiting? Within the little parlor, familiar be cause it held so many well remem-

bered things, Ed Slocum's face worked

strangely. At last he held out his hands to Esther. "Esther, I've meant to come back all these years; I've kept myself straight for you and mother. 1-1 west to a place in Kansas-I picked it out because its name was the same as yours. and your postal card reached me at last. I thought they didn't want me here, and I stayed away, but when the card came, I knew. I disposed of my husiness. i am here. Are you going

smiled down wistfully at her. "I knew you would come back some day." whispered Esther, her head on

to welcome the prodigal son?"

LET YOUR CHILDREN PLAY ALL THEY WANT TO.

Dr. Roger H. Dennelt, a New York physicion who is expert in the care and treatment of children, writes an article in the December Woman's flome Companion on "How to Make Bables Better." He says in part:

"It seems to be the practice of some mothers to suppress lifeir children in their play, with the idea that it is for their good. . . . Not long ago I asked a mother whose child did not seem to be in good heaith if she was very active in her play. The mother replied that her child was very lively indeed but that she was not nilowed to run when she was out of doors for fear of gelting overheated, there was so much danger of her catch- Mother Goose had a house, ing cold afterward. This is not at ali ministal, for 1 meet this suppression almost every day. Such mothers should learn that their children are far more apt to catch edd when they do not get the proper amount of exercise than when they are allowed to can and play She sent ham to market, all they like. Let your children be is lively as they wish and play to their hearts' content. If they are not naturally active, encourage in them a fondness for games. Most of ns have caught the spirit of the fresh air treatment, and it would be well if we could learn that exercise is just as important."

What will you do if you ever fall into siit, or fear you have jost your Whaslad Platform Propelled by Pushway?

I will ohey Christ's commend to Christiens in Rev. 2:5. Remsmher thersfore whence thou art fellen, and repent, and do egein your first

Will the service of Christ he your chief lustness as long as you live?

I shall try to live by the commend and promise of Christ in Matt. 6:33, But seek ye first his kingdom end his righteousness and ell these things shall be edded unto you.

Will you love and work with ali other Christians?

We know that we have passed out of death unto life heceuse we love the hrethren. I John 3:14.

The Children's Hour

NURSERY NONSENSE.

Old Mother Goose, when She wanted to wander, Would ride through the air On a very fine gander, Twas built to a wood, Where an owl at the door For sentinel stood

She had a son Jack, A plann-looking lad; the was not very good Nor yet very had.

A live goose he hought: "Here, mother," says he.

"It will not go for mought." Jack's goose and her gander Grew very fond:

They'd both eat together, Or swim in one pond. Jack found one morning.

As I have been toid. ilis goose had laid inm An egg of pure gold. The news for to tell.

She cailed him a good hoy,

And said it was well, HELPING.

The basket of blocks was on the ground, and hiree rather cross little faces looked down at it.

"It's too heavy for me," said Jim-

"Well, you're big as I am, 'cause

we're twins," said Nellie. "I won't carry it!" said the little

cousin, with a pont.

Manna looked from her open should love the Lord our God with window, and saw the trouble. "One all our heart, mind, coul end day I saw a picture of three littie strength, and our neighbor es our- birds," she said. "Titey wanted a long stick carried somewhere, but it was too large for any one of them Sin is the refusal to keep this lew to carry. What do you think they

"They all took hold of it together," said mainina, "and then they could fly with it."

The children langued and tooked at each other, then they ail took hold of the hasket together, and found it very easy to carry,

"The way to do all the hard things in this world," said mamma, is for every one to help a little. No while his wistful enemy looks lougone can do them all, but every one can help."-Exchange.

Average Length of Life.

Four hundred years ugo the average length of human life was between eighteere and twenty years. One hundred years ago the average human life was less than thirty years. The averworld that he sent his only hegot- age innum life today reaches nearly forty years. This shows what medical on Him should not perish, but have selence has done for human life .--

HANDY BOY ABOUT THE HOME

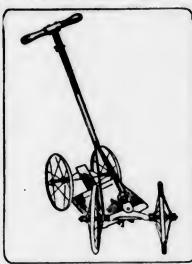

Every Young Man Should Havs Box of Tools and Learn to Repair Articlas Damaged About House.

i like the handy boy sbout the house, who knows how to hang a pic-It is written in Ezekiel 36:26. A ture, drive a nail, and do the little new heart also will I give you, end a necessary repairing that any mother wants done. It is easy enough to little story of what an observant boy learn how to use a saw or chisel, and did: and I will take the stony heart out every boy should have a box of tools. of your flesh end I will give you e so that he can repair articles that may take two different kinds of medicine become damaged. The boy who is What promise like this in the New handy about his mother's house will be of inestimable value to his wife It is written in I John 5:4, Whose- when he shall marry. Itoys who do the odd hours and No. 2 at the even ever is horn of God overcometh the not care to go out at night may learn to make many pretty pieces of furni-What evidence have you that you ture, if they will only devote some time to studying how to use tools and paints. With a few lessons, the handy The promise of salvation from the boy may make picture frames, or cabguilt and power of sin I claim for inels, odd cornices, or desks or other myself. I have come to Jesus with articles of usefulness and value. The sil my heert, end he seys in John hoy who is handy about the house and 6:37, Him that cometh to me I will a help to his mother is one who learns now to make purchases for the house-Do you expect to be perfect at hold, who can tell a good piece of meat at the hutcher's, or pick out fresh vegetables at the market. Oh, no, do not say that marketing is woman's work. It is quite as much ly as long as I live finding out man's work, and besides, none of us God's will more perfectly, and train- can know so much in this world that ing myself for usefulness, end hring- we can afford to ignore even the de-

PLAY APPARATUS FOR BOYS

ing Ons Foot-Adjustable Handla is Used for Support.

After watching small boys coasting about on home-made vehicles propelled by one foot, an Indiana man designed a more elaborate affair on the same principle. A low platform is mounted

New Play Apparatus

on four wheels, two axles of the device being connected by a strong steel The construction is such that by left the wheels will turn in the same direction but the toy will not used The long handle is adjustable to any height and is used more for support his body on one side or the other

Not This Time.

Johnny was rather apprehensively waiting his father's return from husipess. He had a curious little feeting that more would be heard sbout the broken pane of glass it old Grimes glass house

"Take off your coat, my son, and come along with me!" said po after he had rested from dinner.

'You're not going to give me a hiding are you, pa?" inquired young hopeful with a nervous guip.

'Didn't I tell you this morning that would settle with you for your bad techavior when I came home?" queried father.

"Yes." said Johnny hopefully, "but I thought you were only joking, like when you told the grocer you would settle with him."-Rehoboth Sunday

Centipedes and Tarantulas.

A centipede has a deadly fear of a tarantula, and one of the most curious "We don't know," said the twins. habits of the centipede is his manner of going to rest in the desert when he knows his enemy to be in the vicinity. ite builds a cactus fence literally about

A tarantula hates a eaclus as much as he longs after a centipede, and has is it?" never been known to crawl over the plant.

Secure in this knowledge, the centinede will sleep as long as he wishes ingly at him over the barrier, powerless to go to the attack.

Mada of Wallpaper.

by having in his window a pipe organ Topics of paper. Every detail of the organ. tha pipes, the keys, all parts of the case, as well as the sheet of music. were made of wallpaper. Different pat gout make his will, terns were used to imitate the many parts of the organ.

KEEP YOUR EYES OPEN

Little Story of What an Observant Boy Accomplished.

Ingenious Lad Invents Paper Box for His Mother to Take Medicins Without Any Confusion-Idsa

Soon Became Popular.

A great many hoys are elways look ing forward to the time when they will grow up and be oble to do something big, but they overlook the chences they have to do something worth while when they are still boys. Here is a

it often happens that people have to atternately, and endless ways have been tried to remember which comes next. Sometimes they take No. 1 at

Box for Medicins Bottles.

hours and sometimes they put the spoon in the one to take next, or they place one to be taken in the morning in a different glass from the one to be

taken at night. On ingenious boy who saw bis mother always forgetting which of the little bottles of pills to take next noticed that there were two of the bottles in pasteboard box, lying side by sids. They each had a number on them, but there was no way to be sure which

number his mother bad taken last. Then he had an idea. He pasted a little stip of paper on the cover of the box and wrote his directions on it.

As the little box inside slipped out of the cover it was easy to put the cork of one bottle toward one end and the cork of the other et the other end. After taking a dose from bottle No. 1 she just pushed the cork into the cover first, so that the cork of No. 2 was toward the end with the arrow mark, and she always knew that was the one to take next.

A druggist that saw this simple littie trick had labels printed for all hia boxes, and it proved so popular with the doctors that used those medicines that they made the boy a present of a bicycle for his invention.

if you keep your eyes open and think about things you never know when you may hit upon some useful thing like this, which others will pay you for A girl that stooped to fix a broken shoe lace and tried to pull it through the hole with a hairplu invented the surgeons' needle that is used today all over the world for sewing up wounds. Some boys that built a tire upon the sand with seaweed found the secret of making glass

SIX DOORS

FOR ASPIRING YOUNG PEOPLE

1st Door—Berea's Vocational Schools

Training that adds to your money-earning power, combined with general education. FOR YOUNG MEN-Agriculture, Carpentry, Printing, Commer-

FOR YOUNG LADIES-Home Science, Dressmaking, Cooking, Nursing, Stenography and typewriting.

2nd Door—Berea's Foundation School

General Education for those not far advanced, combined with some vocational training. No matter what your present advancement, we can put you with others like yourself and give chance for most rapid progress

3rd Door—Berea's General Academy Course

For those who are not expecting to teach and who are not going thru College, but desire more general education. This is just the thing for those preparing for medical studies or other professions without a college course. It also gives the best general education for those who wish a good start in study and expect to carry it on by

4th Door—Berea's Normal School

This gives the very best training for those who expect to teach. Courses are so arranged that young people can teach through the summer and fail and attend school through the winter and spring, thus earning money to keepright on in their course of study Read Dinsmore's great book, "How to Teach a District School."

5th Door—Berea's Preparatory Academy Course

This is the straight road to College-best training in Mathematica, Sciences, Languages, History and all preparatory subjects. The Academy is now Berea's largest department.

6th Door—Berea College

This is the crown of the whole Institution, and provides etandard courses in all advanced subjects.

Questions Answered

BEREA, FRIEND OF WORKING STUDENTS. Berea College with its affiliated schools, is not a money-making institution. It requires certain fees, but it expends many thousands of dollars each year for the benefit of its students, giving highest advantages at lowest cost, and arranging

as far as possible for students to earn and save in every way. OUR SCHOOL IS LIKE A FAMILY, with careful regulations to protect the character and reputation of the young people. Our etudents come from the best families and are earnest to do well and improve. For any who may be sick the College provides doctor and nurse without extra

All except those with parents in Berea live in College buildings, and many assist in work of boarding hail, farm and shops, receiving valuable training and getting pay according to the value of their labor. Except in winter it is expected that all will have a chance to earn a part of their expenses. Write to the Secretary before coming to secure employment.

PERSONAL EXPENSES for clothing, laundry, postage, books, etc., vary with different people. Berea favors plain ciothing. Our climate is the best, but as students must attend classes regardless of the weather, warm wraps and underelothing, umbrellas and overshoes are necessary. THE CO-OPERATIVE STORE furnishes books, toilet articles, work uniforms, umbrelias and other necessary articles at cost.

LIVING EXPENSES are really below cost. The College asks no rent for the fine buildings in which students live, charging only enough room rent to pay for cleaning, repairs, fuel, lights, and washing of bedding and toweis. For table board, without coffee or extras, \$1.35 a week, in the fall, and \$1.50 in winter. For furnished room, with fuel, lights, washing of bed-

ding, 40 to 60 cents for each person. SCHOOL FEES are two. First a "DOLLAR DEPOSIT," as guarantee for return of room key, library books, etc. This is paid but once, and is

returned when the student departs. Second an "INCIDENTAL FEE" to help on expenses for care of school buildings, hospital, library, etc. (Students pay nothing for tuition or services of teachers-all our instruction is a free gift). The Incidental Fee for most students is \$5.00 n term; in Academy and Normai \$6.00 and

\$7.00 in Collegiate course. PAYMENT MUST BE IN ADVANCE, incidental fee and room rent by the term, board by the half term. Installments are as follows:

FALL TERM VOCATIONAL AND FOUNDATION SCHOOLS AND NORMAL COLLEGE. Incidental Fee..... \$ 5.00 \$ 7.90 7.00 7.00 Room 5.60 Board 7 weeks 9.45 9.45 Amount due Sept. 10, 1913..... \$20.05 \$22.45 \$23.45 Board 7 weeks, dut Oct. 29, 1913 9.45 9.45 9.45 Total for term..... \$29.50 \$31.90 \$32,90 If paid in advance..... *\$29.00 *\$31.40 \$32.40 WINTER TERM Incidental Fee \$ 5.00 \$ 7.00 \$ 6.00 Room 7.20 7.20 Board 6 weeks 9.00 9.00 \$23.20 \$22.20 Amount due Dec. 31, 1913 \$20.00 Board 6 weeks due Feb. 11, 1914 9.00 9.00

\$31.20

\$32.20

Special Expenses—Business. Fall Spring Total \$12.00 Stenography and Typewriting \$14.00 \$10,00 \$36.00 Bookkeeping (regular course) 14.00 12.00 10.00 36.00 6.00 Blookkeeping (brief course) 7.00 Business course studies for students in other departments: Stenography 10.50 7.50 27.00 Typewriting, with one hour's use of instrument 7.00 18.00 Com. Law, Com. Geog., Com. 5.40 1.80 Arith., or Penmanship, each... 2.10 In no ease will special Business Fees exceed \$15.00 per term.

Any able-bodied young man or young woman can get an education at Berea if there is the wili to do so.

It is a great advantage to continue during winter and spring and have a fuil year of continuous study. Many young people waste time in tha public schools going over and over the same things, when they might be Improving much faster by coming to Berea and starting in on new studies with some of the best young men and women from other counties and

Applicants must bring or sand a testimonial showing that thay are above 15 years old, in good hesith, and of good character. This may be signed by some former Berea student or some reliable teacher or neighbor. The use of tobacco is strictly forbidden,

Winter Term opens Dec. 31st. Get Ready! For information or friendly advice write to the Secretary. D. WALTER MORTON, Berea, Ky.

LETTERS TO TEXAS. Interesting to Boys and Girls.

Sandy Branch, Ky., August 1, 1908. My dear son Jackson:-

It is rather hard work for your answering yours which has been

waiting for some days. Our folks are all well and we hope corn is going to be small because rea.

Don't order your shrond Whene'er there's a cloud, back his sway. The trouble and care That now whiten your hair

Will be just a mem'ry a year from to-day.

Keep step to the drums Until the time comes That they muster you out of the service for good; And, glad that it's done

And the battle is won, Just turn up your toes like a good soldier should!

to see crowds of people standing at do. We used to give you good ad--Mrs. John Conrad left a short time, the windows and door. We got to vice and good inquey, and it was like tendance.—Willie Milburn and wife ago for Cincinnati where her husfrom Itazel Patch are in this vicin- band has been for some time.—Jas. and every inch of standing room shall be taken and the other left." occupied by men and women. He- You took the money, and you left and relatives.—John Lear announc- | -G. J. Gentry left today for Buffalo | hind the curtains of the stage were | the advice, and now we think you the wildness that was growing on

> But in the second place, Jackson, something has happened to our John a little of our money. Your brother he has not thrown away any money Then came a big dinner spread at gambling. It is something elsesomething that quite surprised me, and I allow it will surprise you too. to Beren.

You know we kinder wanted you to go to Berea one lime, but you just snorted at it, and we sorter give up the idea that any of our hoys would amount to much. You were MY BEST CUSTOMERS FROM THE the oldest and the smartest, and you went to the city for a "Business Course," and all you brought back was a few new enss words, and so we give it up and never said any-

John he slid along and before we hardly noticed it he was Ialler than this dad, and the higgest boy in the free school. He had done fairly well, but we had not took much notice of him. You remember John had a plg his uncle gave him when he was fourteen, just before you went to the shining shore of Texas? Well, that pig is about half a ton of good lively hog-meat now, and John has sprained my ankle yesterday, I don't been tending a bit of corn land of seem to have much to do out doors, his own, to have the stuff to keep them on. I allowed he was expecting to buy a nag as you did, so he could ride to town and court around generally, and so I asked him how you are enjoying the same blessings. much he thought he could raise on Texas doesn't seem so far off since lhose hogs toward a good gaited you went there. And it seems it is horse; and he said, "Father, I don't "are you going Io get a piece of land

That night she told me how he of that Jake, and the next time you ever since they begun going to Bemarried Thursday. We wish them ter on Licking river for the past wants without you now. That is new ideas about farming and school much joy.—Mr. and Mrs. M. L. Wat- week.

stayed a full year, and now Pal has John and us will stand up for it in got a first class certificate, and Hud Kentucky. is about able to make the farm all over so it will yield double the crops it did. Any rate that is what he claims. And certainly he has learned something for the surveyors over on Possum Trot Creek paid him two dollars a day for helping them, when

foods.

John had watched those Combs boys and that last Christmas when they were home he went over and had several bong talks with them, and from them he has been studying about going to Berea.

they only gave the other men seven-

ty-flve cents.

I did not want to spare John from you to Berea to get you out of harm's way and sometiow break up The Lord knows," she said, "I can't hear to have him out of my sight again from New Year's till June, but if it is for his good, I must not let my feelings stand in his way. I'm sure I had rather have him go to Berea and come back all clean and onds 25@26c. straight and strong like those Combs boys than to have him go to Texas don't get no Texas fever; they are \$3.25@4.25. helping to make this county a better place to be born in. I'd like to have a boy like them."

And so, Jack, though we haven't said so to John, we expect to put a little money on his education, if he does right. He has his hogs, and he will earn something ut Berea-they all do-and we allow that we'll do the rest. The whole expense for the fall term, fourteen weeks is only \$29.00. Besides that he'll have to have some clothes, hut, good grathe rest. The whole expense for have some clothes, but, good gracious, boys have to have clothes here

were fighting fire all summer, and on Sandy Branch. So you stand up were in Berea again in the fall and for the Gabbard family in Texas and

Your loving father,

Palestine Gabbard.
